PROGRESS BETWEEN ARMIES IN MANCHURIA.

### RUSSIAN POSITION PERILOUS

JAPS UNDER KUROKI MAY COM-PEL KUROPATKIN TO RETIRE FROM HUN RIVER.

Fighting on a large scale is in progress between the Russian and Japanese armies in Manchuria. General Kuropatkin, after meeting the initiative of the Japanese in the eastern part of the Shakhe valley, assumed the aggressive in the western portion Tuesday and under cover of a heavy artillery fire from Putiloff hill and Novogorod hill, succeeded in driving the Japanese from a position in the outskirts of Sandiapu. Simultaneously the Russians attacked and captured a railroad bridge on the Japanese center. Much more serious is the Japanese move against the Russian left wing, which threatens unless quickly checked to oblige General Kuropatkin to abandon the positions on the Hun river which he has occupied and fortified during the winter.

### News From Manchuria Indicates Start of Big Battle.

St. Petersburg, March 1.-The latest news from Manchuria is of the most Important nature, an Associated Press dispatch from Mukden indicating that a general battle is beginning along the whole of the 100 miles of front occupied by the two armies. General Kuropatkin appears to have taken a leaf out of Field Marshal Oyama's book and replied to General Kuroki's attack on the Russian left by a counter attack on the Russian left by a counter attack on the Japanese left, in which General Kaulbars' initial success is better for the Russians than the best efforts of General Gripenberg, the Rusgian vanguard being established at the outskirts of Sandiapu. At the same time General Kuropatkin delivered a blow against the Japanese center, seizing a railroad bridge across the Shakhe river. These reports, therefore, give a more hopeful aspect to the situation, as the Russian army, though driven out of Da pass, appears to have having killed C. H. Schindeldecker in speed, accuracy of aim, ability to succeeded in stopping, at least for the Feb. 18, also killed his alleged accommoment, the further advance of the plice, Joseph Hartmann, and disposed Japanese eastward and beaten off the of the body in Pickerel lake.

If, however, General Kuropatkin is determined to stand and fight out the battle on the line which he has held during the winter, and if he should be able to administer a vigorous check to General Kuroki, he has secured a good position for his second move in the great game.

# GREAT BATTLE IS ON

FIGHTING ON A LARGE SCALE IN PROGRESS BETWEEN ARMIES IN MANCHURIA.

### RUSSIAN POSITION PERILOUS

JAPS UNDER KUROKI MAY COM-PEL KUROPATKIN TO RETIRE FROM HUN RIVER.

Fighting on a large scale is in progress between the Russian and Japanese armies in Manchuria. General Kuropatkin, after meeting the initiative of the Japanese in the eastern part of the Shakhe valley, assumed the aggressive in the western portion Tuesday and under cover of a heavy artillery fire from Putiloff hill and Novogorod hill, succeeded in driving the Japanese from a position in the outskirts of Sandiapu. Simultaneously the Russians attacked and captured a railroad bridge on the Japanese center. Much more serious is the Japanese move against the Russian left wing, which threatens unless quickly checked to oblige General Kuropatkin to abandon the positions on the Hun river which he has occupied and fortified during the winter.

There is no confirmation of the report that the Russian commander-inshief has notified the emperor that retreat northward has become impera-

The Russians at Tsinkhetchen left 203 dead on the field and lost several machine guns. Their casualties are estimated at over 2,000. The Japanese loss was small.

### CHECK JAP ADVANCE

RUSSIANS ALSO SIEZE TWO PO-SITIONS FORMERLY HELD BY ISLANDERS.

Mukden. March 1.-The Russians have seized the head of the bridge across the Shakhe river in the center of the Japanese lines, assisted by artillery firing of particular energy from Putiloff hill and Novogorod hill.

The seizure of the railway bridge across the Shakhe river was the occasion of a sharp combat. The Russians succeeded in surprising the Japanese bridge guards and, reinforced, beat off all attempts of the Japanese to regain possession of it. The Japanese are using heavy siege artillery in the bombardment of Putiloff hill and Novogorod hill and this is believed to be preliminary to an attempt to storm them. The losses to the defending forces

are insignificant. The roar of artillery firing is echoing from the hills eastward to the low flats of the Hun river valley, the scene of General Gripenberg's repulse.

The fight appears to be developing in intensity along the whole line. Ten determined attacks opposite

Yangsintung and west of Vanupudzi were all repulsed with heavy loss. The situation on the Russian left

flank is unchanged as compared with Monday evening.

Fighting is in progress along the whole line, the Japanese attacking everywhere. All attacks Tuesday morning were beaten back and the Russians made counter attacks at Russians occupied the village of Boatalzsi, which is close to Sandiapu, and from that position hurled hand grenades across the intervening ravine into the Japanese trenches in Sandiapu, causing heavy loss and great dis-

### OF AN IMPORTANT NATURE.

News From Manchuria Indicates Start of Big Battle.

St. Petersburg, March 1.-The latest news from Manchuria is of the most Important nature, an Associated Press dispatch from Mukden indicating that a general battle is beginning along the whole of the 100 miles of front occupied by the two armies. General Kuropatkin appears to have taken a leaf out of Field Marshal Oyama's book and replied to General Kuroki's attack on the Russian left by a counter attack on the Russian left by a counter attack on the Japanese left, in which General Kaulbars' initial success is better for the Russians than the best efforts of General Gripenberg, the Rusgian vanguard being established at the outskirts of Sandiapu. At the same time General Kuropatkin delivered a blow against the Japanese center, seizing a railroad bridge across the Shakhe river. These reports, therefore, give a more hopeful aspect to the situation, as the Russian army, though driven out of Da pass, appears to have succeeded in stopping, at least for the moment, the further advance of the

The effect of Tuesday's developin the face of an nemy, which is extremely habardous under any circumstances, is doubly dangerous when the armies are grappling in a general engagement; but if General Kuroki succeeds in rolling up the Russian left much further the perilous expedient may become necessary. The counter strokes on the right and center may possibly be intended to cover the withdrawing trains and stores.

If, however, General Kuropatkin is determined to stand and fight out the battle on the line which he has held during the winter, and if he should be able to administer a vigorous check to General Kuroki, he has secured a good position for his second move in the great game.

### NEW DOMESTIC JAP LOAN.

### Expected That It Will Be Doubly Subscribed.

Tokio, March 1 .-- A meeting of bankers and financiers was held during the day for the purpose of discussing the subscriptions to the new domestic loan should it be found to be oversubscribed when the list is opened.

At the close of the meeting the associated bankers announced that they would take 60,000,000 yen, about \$30,-000,000. The imperial household will take 5,000,000 yen, and other corporations and individuals 40,000,000 yen.

It is expected that the loan will be doubly subscribed. Count Okuma, addressing the meeting, said that the Japanese domestic financial capacity was astonishing even to its friends. He expressed the belief that the slight disturbance in financial conditions despite the enormous expenditures, was due to the fact that agriculture furnished the country's great wealth. Continuing, Count Okuma said that he believed the country would continue the war without any feeling of embarrassment.

### INDIAN APPROPRIATION BILL.

### Discussion of the Measure Occupies Time of the Senate.

Washington, March 1 .- The senate spent almost the entire day considering items in the Indian appropriation bill which were not passed on Monday and extended the session into the night for that purpose. There was quite a lengthy disucssion of the committee amendment prohibiting the use of tribal funds in the support of secretarian schools. The provision was modified so as to allow individual members of tribes to use their proportion of funds in support of such schools and as thus amended was agreed to. Many other features of the bill were also de-

Another feature of the day was a speech by Mr. Kearns of Utah on the Mormon church. He charged that the church controls the politics and business of Utah. He denied in emphatic terms that he had paid Lorenzo Snow, the president of the church, for support of himself for senator. A half dozen bills intended to rem-

edy the defects in the laws as to steam vessels which were brought to the surface by the disaster to the General Slocum in New York were passed.

At a late hour the senate passed the Indian appropriation bill and began the consideration of the postoffice appropriation bill.

A bill authorizing the president to withdraw certain lands in Minnesota from the market for reservoir purposes was passed.

### BY UNANIMOUS CONSENT.

### Large Number of Bills Passed by the House.

Washington, March 1.-The session of the house during the day was devoid of any incidents such as marked dent. the closing hours Monday. On the many places. On the right flank the contrary, the proceedings were orderly and without particular note.

As an evidence of the approaching adjournment, a large number of bills were passed by unanimous consent and an evening session was held in order to discuss the general deficiency appropriation bill.

During the day the bills amending the homestead laws as to lands in South Dakota and Colorado, so as to permit the entry of 640 acres instead of 160 were discussed. Final action on them, however, was prevented by the dilatory tactics of the opposition.

### TO ASK FOR CHANGE OF VENUE.

### Mrs. Chadwick Does Not Want to Ba Tried in Cleveland.

Cleveland, O., March 1 .- Mrs. Chadwick declared during the day that her attorneys would apply for a change of venue in connection with her trial in the United States district court. She said the action would be taken on the ground that District Attorney Sullivan, who will prosecute her case if tried here, is related to Judge Tayler and that, owing to the strong feeling existing against her in this city, a fair and unprejudiced trial could not be secured.

CHICAGO FIGHTER BADLY DE-FEATS YOUNG CORBETT AT SAN FRANCISCO.

### SAVED FROM A KNOCKOUT

SECONDS OF THE DENVER MAN THROW UP THE SPONGE IN THE NINTH ROUND.

San Francisco, March 1.-Battling Nelson of Chicago made Young Corbett of Denver appear the poorest yro at the fighting game at night when he practically knocked him out in the middle off the ninth round. In order to save their man a complete knockout the seconds threw up the sponge. The man who twice beat Terry McGovern was not in it with the young Dane at any stage of the game. In the early part of the fight on several occasions he straightened Nelson up with rights and lefts on the jaw, but when it came to following up his advantage his swings were wild. He seemed to be over anxious, while Nelson at all times was cool and confi-

The seventh round, when it appeared as if Corbett were practically gone, he showed a flash of his old-time speed and landed several severe punches on Nelson's ribs and jaw. It was only a spurt, however, and Young Corbett soon lapsed into his semigroggy condition, which lasted until the end of the fight.

Nelson's plan of battle was to force Corbett around the ring, keeping close to him all the time. Whenever Corbett missed a swing Nelson was there with a return that generally landed.

### Nelson Landed at Will. From the fifth round on Nelson kept

Corbett on the ropes and landed at

Corbett in some way managed to protect himself from a knockout blow until the middle of the ninth round. Then in a rally Nelson swung his right over the jaw and Corbett went down on his back. He remained down and then stood up against the ropes with his hands lowered unable to protect himself. Nelson partly toppled him over with a swing on the jaw, but before Corbett was fairly on the mat his seconds threw up the sponge. The round lasted two minutes and thirtyfive seconds.

In the eighth round Nelson had Corbett against the ropes and the Denver man claimed a foul and lowered his hands. No foul was apparent and the St. Paul, March 1.-The police fear referee did not allow it. Nelson demthat Edward Gottschalk, suspected of onstrated that he is Corbett's superior in speed, accuracy of aim, ability to take punishment, and stiff punches.

After the fight was over Corbett had but little to say. He had no excuse

to offer. Nelson, of course, was very happy and said that his next effort would be to obtain a fight with Britt, who has once defeated him.

The fight was heavily played by the betting element. The odds on Nelson were 10 to 8 and were easily snapped at by Corbett's admirers, but there was plenty of Nelson money in sight and all bets offered were taken.

This long sad history speaks indirectly of the pathetic history of the imbecile. If he was not killed or starved to death by neglect, etc., he was usually reduced to the condition of a beast either about the house or fields or was actually driven into the woods and forced to live in caves, among wild animals, etc. In Alex Gilmer is down from the north 1799 Itard took a "wild boy" found in the forests of Aveyron and tried to teach him. The ability of the wild boys and wolf children to live and the number that did so shows that idiocy, Mayor Con O'Brien was in the twin as we have later learned, is of all degrees and that a mind may be variously defective in some ways, even idiotic, Judge S. F. Alderman returned from but in others with capabilities well preserved. Blind Tom, the pianist, and the large number of mathematic idiots are examples that show how far we are from understanding the real nature of idiocy, and they more than suggest the partial retention of sound mentality of the defective, the possibility of seizing upon the one or few normal or even highly developed faculties and perhaps bringing others into co-ordination with them and to normality. The court fools and jesters of the olden times were often such partial idiots and defectives, and they truly lived upon their "wits," which were often better than those of their masters.-American

# FOR STATE CONTROL

HOUSE BILL TO MAKE PHONE AND TELEGRAPH COMPANIES COMMON CARRIERS.

MEASURE WOULD PLACE THEM UNDER CONTROL OF WARE-HOUSE COMMISSION.

St. Paul, March 1 .- In the house Tuesday W. C. Fraser of Olmsted county introduced a bill bringing all telephone and telegraph companies in the state under the jurisdiction of the railroad and warehouse commission. By its terms telegraph and telephone companies are designated as common carriers, and as such must submit to rules and regulations to be drafted by the railway commission.

The commission is authorized to designate what hours telephone and telegraph exchanges shall be kept open and to compel connection between companies, if it deems such necessary.

For the purpose of legalizing what is now done, John Zelch of Washington county offered a bill authorizing the board of control to borrow money to meet the current demands on the revolving fund of the state prison. The amount borrowed is not to be in excess of 50 per cent of the fund.

Five days must elapse after the issuance of a license before a marriage can be performed, under a bill introduced by Elmer E. Adams of Fergus Falls. Violation of this provision is made a misdemeanor and penalties are provided.

Two bills designed to protect the fee system in vogue in several of the county offices were introduced by the Ramsey county delegation.

This scheme of protection is based on the fear that the next state census will bring Ramsey county within the 200,000 class in population, and, if so, then Hennepin county's straight salary law will prevail. Such a condition is avoided by making the United States census the basis of computation.

### AN IMPORTANT MEASURE.

### Senate Bill Affects Wage-Earners of Small Means.

An important bill bearing upon wage-earners of small means was introduced in the state by Senator Rieke. It relates to exemption of wages from attachment, and is said to emanate from the Retail Grocers' association.

Under the bill, as proposed, the wages of any person or minor child of any person, due for any services ren-What an age of noise this is! But where the wages are payable at shorter intervals than once a month, then the amount of the exemption shall be for a proportionate sum at the rate of \$25 per month. Under the present law the exemption is \$25, and there is no provision for proportional exemptions.

A bill by Senator Rieke authorizes the pardon board to employ a clerk for four years at \$1,200 a year to copy back records from 1858 to date touching pardons and all matters appertaining to this subject

Senator Stephens bill prohibits the use of automatic and repeating shotguns in hunting wild birds. The penalty is a fine, and the carrying of what are known as 'pump' guns in the woods, will be prima facie evidence of a violation of the law.

Under a bill by Senator Witherstine, a similar bill having been introduced in the house, telegraph and telephone companies are made common carriers and placed under the control of the railroad and warehouse commission.

It may inquire into the reasonableness of service and rates and establish joint rates.

The state medical board is authorized to accept certificates from licensed physicians of other states, under a bill proposed by Senator Cole.

### THE TERM "IDIOT."

In the Original Greek It Simply Meant a Private Person.

The word idiot is itself of interesting history. Its primary Greek significance was that of a private as distinguished from a public person. Our words idiom, idiosyncrasy, etc., are from the same root. The idiot in Greek was simply one not engaged in public affairs. The beginnings of the degradation of the word are shown in its application soon to the common people as distinguished from the upper classes. It was then applied to unprofessional and lay people and soon 'became the slurring title of the unskillful and awkward. By slow degrees it became applicable to the stupid and at last to the imbecile and idiot. As late as the sixteenth and seventeenth centuries the word was still used in its earlier senses. This long sad history speaks indirectly of the pathetic history of the imbecile. If he was not killed or starved to death by neglect, etc., he was usually reduced to the condition of a beast either about the house or fields or was actually driven into the woods and forced to live in caves, among wild animals, etc. In 1799 Itard took a "wild boy" found in the forests of Aveyron and tried to teach him. The ability of the wild boys and wolf children to live and the number that did so shows that idiocy, as we have later learned, is of all degrees and that a mind may be variously defective in some ways, even idiotic, but in others with capabilities well preserved. Blind Tom, the pianist, and the large number of mathematic idiots are examples that show how far we are from understanding the real nature of idiocy, and they more than suggest the partial retention of sound mentality of the defective, the possibility of seizing upon the one or few normal or even highly developed faculties and perhaps bringing others into co-ordination with them and to normality. The court fools and jesters of the olden times were often such partial idiots and defectives, and they truly lived upon their "wits," which were often better than those of their masters.-American Medicine.

### THE VALUE OF EXAMPLE.

To have your child truthful, be truth-

### Lincoln's Retort to Douglas.

Douglas, meeting Lincoln on one occasion during the exciting campaign of 1860, made a characteristically unpleasant remark, saying:

"Why, Abe, I remember you when you were nothing but a young clerk in a little western town, peddling out goods at retail and selling liquor over the counter."

"Yes," answered Lincoln, "the only difference between you and me was that I was on one side of the counter and you were on the other."

### The Era of Noise.

What an age of noise this is! Do you know any single human being who is capable of being silent for an hour at a stretch? I know two, and I value them according to their rarity. Not only does everybody talk, but almost everybody talks loud. I went into a shop the other day, and the clatter of conversation sounded as though the place were full of people. Yet all the noise was produced by three individuals. Why should they shout?-London Truth.

### The Classes In England.

In England the upper class gambles, but does not drink; the middle class drinks, but does not gamble, and the lower class both drinks and gambles. It is a characteristic circumstance that the upper class makes laws to prevent the lower class from gambling and that the lower class is in favor of legislation to prevent the upper class from drinking.

# FOR STATE CONTROL

HOUSE BILL TO MAKE PHONE AND TELEGRAPH COMPANIES COMMON CARRIERS.

MEASURE WOULD PLACE THEM UNDER CONTROL OF WARE-HOUSE COMMISSION.

St. Paul. March 1 .- In the house Tuesday W. C. Fraser of Olmsted county introduced a bill bringing all telephone and telegraph companies in the state under the jurisdiction of the railroad and warehouse commission. By its terms telegraph and telephone companies are designated as common carriers, and as such must submit to rules and regulations to be drafted by the railway commission.

The commission is authorized to designate what hours telephone and telegraph exchanges shall be kept open and to compel connection between companies, if it deems such necessary.

For the purpose of legalizing what is now done, John Zelch of Washington county offered a bill authorizing the board of control to borrow money to meet the current demands on the revolving fund of the state prison. The amount borrowed is not to be in excess of 50 per cent of the fund.

Five days must elapse after the issuance of a license before a marriage can be performed, under a bill introduced by Elmer E. Adams of Fergus Falls. Violation of this provision is made a misdemeanor and penalties are provided.

Two bills designed to protect the fee system in vogue in several of the county offices were introduced by the Ramsey county delegation.

This scheme of protection is based on the fear that the next state census will bring Ramsey county within the 200,000 class in population, and, if so, then Hennepin county's straight salary law will prevail. Such a condition is avoided by making the United States census the basis of computation.

### State Inspection of Hay.

Carl Wallace wants hay scales and state inspection of that commodity provided at terminal points, which are to be St. Paul, Minneapolis and Duluth, and has offered a bill providing for

In line with the charge that the legislature has been paying a fancy figure for its stationary, P. A. Gandrud of Kandiyohi county introduced a bill providing for the purchase of supplies for future legislatures by the board of

Carl Wallace of the Hennepin delegation, is the author of two bills. One of which provides a penitentiary sentence for a confirmed blind pigger and the other directed against the nickelin-the-slot machine. The feature of the last named bill is that, if county Tommy and his little brother had attorneys, policemen or any court officials fail to take cognizance of the presence of gambling devices in their territory, and further fail to proceed against the owners, they shall be while soothing the crying child, sought charged with malfeasance and their dismissal by the governor will follow.

With only a few of the country members dissenting, the house passed a resolution offered by J. T. Mannix of Minneapolis, requesting the capitol commission to keep the capitol open to visitors on Sunday afternoon.

With only the Hennepin delegation voting in the negative, defeat was accorded Carl Wallace's bill allowing persons and corporations to pay taxes under protest, without the incurrence of the penalty, for the purpose of testing the validity of the same.

### AN IMPORTANT MEASURE.

### Senate Bill Affects Wage-Earners of Small Means.

An important bill bearing upon wage-earners of small means was introduced in the state by Senator Rieke. It relates to exemption of wages from attachment, and is said to emanate from the Retail Grocers' association.

Under the bill, as proposed, the wages of any person or minor child of any person, due for any services rendered by such person, shall be exempt from process of attachment, garnishment or levy of an execution in a sum not exceeding \$25, where said wages are paid monthly or at longer intervals. But where the wages are payable at shorter intervals than once a month, then the amount of the exemption shall be for a proportionate sum at the rate of \$25 per month. Under the present law the exemption is \$25, and there is no provision for proportional exemptions.

A bill by Senator Rieke authorizes the pardon board to employ a clerk for four years at \$1,200 a year to copy back records from 1858 to date touching pardons and all matters appertaining to this subject

Senator Stephens bill prohibits the use of automatic and repeating shotguns in hunting wild birds. The penalty is a fine, and the carrying of what are known as 'pump' guns in the woods, will be prima facie evidence of a violation of the law.

Under a bill by Senator Witherstine, a similar bill having been introduced in the house, telegraph and telephone companies are made common carriers and placed under the control of the railroad and warehouse commission.

It may inquire into the reasonableness of service and rates and establish joint rates.

The state medical board is authorized to accept certificates from licensed physicians of other states, under a bill proposed by Senator Cole.

## Sure Relief for Women.

No. 18 Central Ave. Hot Springs, Ark., April 30, 1903.

Eighteen months ago I was so completely run down that my body ached from head to foot. My back seemed to break in two and I suffered intense pain in the lower abdomen. I could not afford to lay off and take a rest, and no medicine helped me any.

A friend told me how much Wine of Cardui built her up and advised me by all means to take it. The day I took the first dose the recovery of my health began. It was nearly three months before I was entirely cured, but at the end of that time I was in better health than I had been for seven years. I look on Wine of Cardui as the most blessed medicine that a woman could possibly take when she feels sick and tired of life.

### THE TERM "IDIOT."

### In the Original Greek It Simply Meant a Private Person.

The word idiot is itself of interesting history. Its primary Greek significance was that of a private as distinguished from a public person. Our words idiom, idiosyncrasy, etc., are from the same root. The idiot in Greek was simply one not engaged in public affairs. The beginnings of the degradation of the word are shown in its application soon to the common people as distinguished from the upper classes. It was team in the league, or even to get a fair then applied to unprofessional and lay people and soon 'became the slurring title of the unskillful and awkward. By slow degrees it became applicable to the stupid and at last to the imbecile and idiot. As late as the sixteenth sionally-and that's what we are trying and seventeenth centuries the word was still used in its earlier senses. This long sad history speaks indirectly of the pathetic history of the imbecile. If he was not killed or starved to death by neglect, etc., he was usually reduced to the condition of a beast either about the house or fields or was actually driven into the woods and forced to live in caves, among wild animals, etc. In 1799 Itard took a "wild boy" found in the forests of Aveyron and tried to teach him. The ability of the wild boys and wolf children to live and the number that did so shows that idiocy, Mayor Con O'Brien was in the twin as we have later learned, is of all degrees and that a mind may be variously defective in some ways, even idiotic, but in others with capabilities well preserved. Blind Tom, the pianist, and the large number of mathematic idiots are examples that show how far we are from understanding the real nature of idiocy, and they more than suggest the partial retention of sound mentality of the defective, the possibility of seizing upon the one or few normal or even highly developed faculties and perhaps bringing others into co-ordination with them and to normality. The court fools and jesters of the olden times were often such partial idiots and defectives, and they truly lived upon their "wits," which were often better than those of their masters.-American Medicine.

### THE VALUE OF EXAMPLE.

To have your child truthful, be truth-

To have him temperate, be temperate in all things.

To have him kind to others, be yourself kind to others.

Prescribe healthful amusements and so far as you can take part in them. Prove to him by your life that a good

name is to be chosen before great Teach him that riches are not to be despised, but should never be got by

to see if it was so.'

Douglas, meeting Lincoln on one occasion during the exciting campaign of 1860, made a characteristically unpleasant remark, saying:

"Why, Abe, I remember you when you were nothing but a young clerk in a little western town, peddling out goods at retail and selling liquor over the counter."

"Yes," answered Lincoln, "the only difference between you and me was that I was on one side of the counter and you were on the other."

### The Era of Noise.

What an age of noise this is! Do you know any single human being who empt from process of attachment, garis capable of being silent for an hour at a stretch? I know two, and I value them according to their rarity. Not only does everybody talk, but almost everybody talks loud. I went into a shop the other day, and the clatter of conversation sounded as though the place were full of people. Yet all the noise was produced by three individuals. Why should they shout?-London Truth.

### The Classes In England. In England the upper class gambles,

but does not drink; the middle class drinks, but does not gamble, and the lower class both drinks and gambles. It is a characteristic circumstance that the upper class makes laws to prevent the lower class from gambling and that the lower class is in favor of legislation to prevent the upper class from drinking.

HOUSE BILL TO MAKE PHONE AND TELEGRAPH COMPANIES COMMON CARRIERS.

MEASURE WOULD PLACE THEM UNDER CONTROL OF WARE-HOUSE COMMISSION.

St. Paul. March 1.-In the house Tuesday W. C. Fraser of Olmsted county introduced a bill bringing all telephone and telegraph companies in the state under the jurisdiction of the railroad and warehouse commission. By its terms telegraph and telephone companies are designated as common carriers, and as such must submit to rules and regulations to be drafted by the railway commission.

The commission is authorized to designate what hours telephone and telegraph exchanges shall be kept open and to compel connection between companies, if it deems such necessary.

For the purpose of legalizing what is now done, John Zelch of Washington county offered a bill authorizing the board of control to borrow money to meet the current demands on the revolving fund of the state prison. The amount borrowed is not to be in excess of 50 per cent of the fund.

Five days must elapse after the issuance of a license before a marriage can be performed, under a bill introduced by Elmer E. Adams of Fergus Falls. Violation of this provision is made a misdemeanor and penalties are provided.

Two bills designed to protect the fee system in vogue in several of the county offices were introduced by the Ramsey county delegation.

This scheme of protection is based on the fear that the next state census will bring Ramsey county within the 200,000 class in population, and, if so, then Hennepin county's straight salary law will prevail. Such a condition is avoided by making the United States census the basis of computation.

### Senate Bill Affects Wage-Earners of Small Means.

An important bill bearing upon wage-earners of small means was introduced in the state by Senator Rieke. It relates to exemption of wages from attachment, and is said to emanate from the Retail Grocers' association.

Under the bill, as proposed, the wages of any person or minor child of any person, due for any services rendered by such person, shall be exnishment or levy of an execution in a sum not exceeding \$25, where said wages are paid monthly or at longer intervals. But where the wages are payable at shorter intervals than once a month, then the amount of the exemption shall be for a proportionate sum at the rate of \$25 per month. Under the present law the exemption is \$25, and there is no provision for proportional exemptions.

A bill by Senator Rieke authorizes the pardon board to employ a clerk for four years at \$1,200 a year to copy back records from 1858 to date touching pardons and all matters appertaining to this subject

Senator Stephens bill prohibits the use of automatic and repeating shotguns in hunting wild birds. The penalty is a fine, and the carrying of what are known as 'pump" guns in the woods, will be prima facie evidence of a violation of the law.

# Sure Relief for Women.

No. 18 Central Ave. Hot Springs, Ark., April 30, 1903.

Eighteen months ago I was so completely run down that my body ached from head to foot. My back seemed to break in two and I suffered intense pain in the lower abdomen. I could not afford to lay off and take a rest, and no medicine helped me any.

A friend told me how much Wine of Cardui built her up and advised me by all means to take it. The day I took the first dose the recovery of my health began. It was nearly three months before I was entirely cured, but at the end of that time I was in better health than I had been for seven years. I look on Wine of Cardui as the most blessed medicine that a woman could possibly take when she feels sick and tired of life.

Orator, Wednesday Chautauqua Club.

Mrs. Nelson describes the condition of thousands of women. That condition comes by slow stages. Usually the important function of menstruation is at first slightly irregular. Then comes the painful periods. Bearing-down pains and ovarian inflammation follow. Finally the nervous system gives way and the whole system has become affected and the pains rack the body from head to foot.

Wine of Cardui is a menstrual regulator of established reputation. No woman who takes it suffers as Mrs. Nelson suffered. It gives speedy and complete relief from the torturing menstrual agonies which are making so many women invalids today. Do not let yourself come to the pitiable condition Mrs. Nelson describes.

Secure a bottle of Wine of Cardui from your druggist today and begin treatment immediately.

# CAN MAKE GOOD

If They Are Given a Try-out in Northern Base Ball League this Season

at the St. Patrick's day entertainment A STRONG INFIELD RIGHT HERE

A Bunch of "Stickers" That Would Make Most Any Pitcher Turn Pale.

While under the head of "unfinished business" it might be stated that when Brainerd gets into the Northern League, if she does, there are a few players right here at home who would make good material for the class that is to go this year in the pennant chase in this league.

There are several individuals who could have played in last year's teams and made good. Pat Boyle, for instance, at third would surely make good. He is speedy and covers his territory with perfect satisfaction. Then too he is strong with the willow, and this is no cheap amatuer talk either, for Boyle has been known to go up against some of the best in the business. Then there is young Eddie Boyle, who plays second like a major, and Jack Boyle at first. All three, it is thought, would make good and it is possible that some of the teams this year will have even poorer men on the infield than they. Templeton at short is also a comer, as is Roderick behind the bat and if Baldy Murphy ever could get his batting clothes on, oh well say, there wouldn't be anything to it at all.

It is understood that some of the most influential business men of the city are taking an interest in the matter. Mayor O'Brien and R. R. Wise are interested and it is understood that several others have signified a willingness to get into

It is understood that A.A. White, who owns the baseball park, is very much interested in getting Brainerd into the Northern League. He has taken more interest in baseball since this park was built than ever before and has come to the conclusion that if Brainerd could be affiliated with a good organization like the Northern League that it would pay. Some improvements would have to be made on the grounds, but this could be easily arranged.

### Loss of Sleep Means Loss of Mind.

Inability to Sleep is Nature's Plain Warning of an Exhausted Nervous System.

When you overwork any muscle or set of muscles they tire and must have rest. What is true of muscle is doubly true of the brain, as from it emanates all power to work, to act, to think. The brain is full of little cells that during the waking hours are never quiet in their efforts to furnish to every organ the power to do its duty. Rob these little cells of their rest at night-keep them at work all the time, and soon they tire, refuse to act, fail to generate nerve force and the system goes to ruin. Bromides, sedatives, opiates only hasten the end—they do not build up, they tear down. The true remedy, the only cure, lies in Dr. A. W. Chase's Nerve Pills, a medicine that revitalizes, reinvigorates, and by properly nourishing these overworked little cells, give them rest and quiet and enables one to sleep naturally and easily Mrs. Fred Wholeben of Glade

A STRONG INFIELD RIGHT HERE

A Bunch of "Stickers" That Would Make Most Any Pitcher Turn Pale.

While under the head of "unfinished business" it might be stated that when Brainerd gets into the Northern League, if she does, there are a few players right here at home who would make good material for the class that is to go this year in the pennant chase in this league.

There are several individuals who could have played in last year's teams and made good. Pat Boyle, for instance, at third would surely make good. He is speedy and covers his territory with perfect satisfaction. Then too he is strong with the willow, and this is no cheap amatuer talk either, for Boyle has been known to go up against some of the best in the business. Then there is young Eddie Boyle, who plays second like a major, and Jack Boyle at first. All three, it is thought, would make good and it is possible that some of the teams this year will have even poorer men on the infield than they. Templeton at short is also a comer, as is Roderick behind the bat and if Baldy Murphy ever could get his batting clothes on, oh well say, there wouldn't be anything to it at all.

It is understood that some of the most influential business men of the city are taking an interest in the matter. Mayor O'Brien and R. R. Wise are interested and it is understood that several others have signified a willingness to get into the game.

It is understood that A. A. White, who owns the baseball park, is very much interested in getting Brainerd into the Northern League. He has taken more interest in baseball since this park was built than ever before and has come to the conclusion that if Brainerd could be affiliated with a good organization like the Northern League that it would pay. Some improvements would have to be made on the grounds, but this could be easily arranged.

Miss Mayme Carney Becomes the Bride of Mr. George H. Ley, of Grafton, N. D.

WEDDING LARGELY ATTENDED

### Mr. and Mrs. Ley Leave for St. Cloud for a Short Visit With Relatives and Friends.

This morning at 9 o'clock occurred the marriage of Miss Mayme Carney, daughter of Mrs. P. H. Carney, to Mr. George H. Ley, of Grafton, N. D. The marriage took place at St. Francis' Catholic church in the presence of a large number of friends and relatives of the couple, and, though simple, it was very pretty, the altar being heavily decked with bridal roses and other beautiful flowers.

Mr. James H. Murphy and Mr. Edward McClary acted as ushers and promptly at 9 o'clock the doors swung open and the opening strains of Mendelssohn's wedding march announced the approach of the wedding party. Following the ushers was Miss Anna Carney, sister of the bride, who acted as maid of honor. She wore a gown of champagne colored crepe de chene and carried a bouquet of white roses. Miss Carney, the bride, was attired in her going away gown which looked very becoming and neat. The gown was made of blue voile, trimmed with lace, and a hat to match. She carried a large bouquet of pink roses.

Mr. Ley, the bridgroom, and his brother, John H. Ley, who acted as best man. Rev. D. W. Lynch was the celebrant and during the ceremony the choir sang Peter's mass. While the marriage vows were being spoken Prof. William Graham rendered a cornet solo, "O Promise Me," and later, just before the blessing, rendered "Palms" in a very effective manner.

After the wedding at the church a few intimate friends and relatives of the family repaired to the home of the bride on north Eighth street where a wedding breakfast was served. The home was beautifully decorated with potted plants, cut flowers, etc. Pink and green were the predominating colors. The table presented an unusually pleasant scene, the center piece being surmounted with a large, beautiful bouquet of bridal roses and ferns.

The bride, Miss Carney, is among Co. Brainerd's most popular young ladies. She has lived here for a long time, in fact, all her life. Her father was the late P. H. Carney, the oldest engineer on the Northern Pacific system. Miss Carney has been for about eight years an employee of the postoffice, where her constant contact with people made her many friends. She has scores of friends in the city who will extend their best wishes for a long life of happiness.

Mr. Ley, the bridegroom, is a young business man of Grafton, N. D. His home was formerly at St. Cloud where his parents and other relatives now live. He is a very popular young fellow and has a large circle of friends in St. Cloud and Grafton.

Mr. and Mrs. Ley left this afternoon for St. Cloud where they will visit for a time after which they go to Grafton, N. D., where they will make their future

### Defective Iowa Statute Permits Bankers to Regain Liberty.

Davenport, Ia., March 1.-Because the Iowa statutes, which make it a crime of embezzlement for a banker to loan money to himself, fail to provide a punishment for the crime, M. Beuthein and Arnold Beuthein, president and cashier of the wrecked New Liberty, Ia., bank will go free, although one pleaded guilty and the other was under indictment.

Judge J. W. Bollinger of the district court here during the day held that the law was defective because it failed to provide punishment and he ordered the indictment of M. Beuthien quashed. Arnold Beuthien had pleaded guilty, but he will withdraw this plea and will be liberated. The Beuthien bank failure involved more than \$100,-000 loss; of this sum young Beuthien loaned \$75,000 to himself to promote a theatrical enterprise.

FIRE ON STEAMER OREGON.

All the Passengers Safely Transferred to Another Vessel.

San Francisco, March 1.-Fire broke out in the cargo of the steamer Oregon when the ship was about fifteen miles southwest of Crescent City on her voyage from San Francisco to Portland. There were fifty-six passengers on board the Oregon besides the crew, but the passengers were safely transferred to the steamer Del Norte and taken to Crescent City. The Oregon proceeded to the harbor under her own steam, the fire having been subdued. The total loss has not yet been ascertained.

BEUTHIENS WILL GO FREE.

Defective Iowa Statute Permits Bankers to Regain Liberty.

Davenport, Ia., March 1 .- Because the Iowa statutes, which make it a crime of embezzlement for a banker to loan money to himself, fail to provide a punishment for the crime, M. Beuthein and Arnold Beuthein, president and cashier of the wrecked New Liberty, Ia., bank will go free, although one pleaded guilty and the other was under indictment.

Judge J. W. Bollinger of the district court here during the day held that the law was defective because it failed to provide punishment and he ordered the indictment of M. Beuthien quashed. Arnold Beuthien had pleaded guilty, but he will withdraw this plea and will be liberated. The Beuthien bank failure involved more than \$100,-000 loss; of this sum young Beuthien loaned \$75,000 to himself to promote a theatrical enterprise.

TO FIGHT THE MEAT TRUST.

State of Illinois May Erect Packing-

houses in Prisons.

Springfield, Ill., March 1.-The method by which the twine trust has been fought in several states is possibly to be utilized in Illinois against the alleged meat trust. In the lower house of the legislature here a bill was introduced during the day by Representative Canady of Montgomery to appropriate \$500,000 for the erection and maintenance of state packinghouses in the penitentiaries at Joliet and Chester.

There is a Heap of Solace in Being Able to Depend Upon a Well-earn-

ed Reputation.

For months Brainerd readers have seen the constant expression of praise for Doan's Kidney Pills, and read about the good work they have done in this locality. Not another remedy ever produced such convincing proof of merit.

Mrs. John C. Beck, of 615 Maple St. Brainerd, Minn., says: "The merits of Doan's Kidney Pills are second to no other kidney medicine. Mr. Beck sufong time. There were continual pains and an annoyance from a disturbed condition of the kidneys. He tried one treatment after another but always without noticeable benefit. Doan's Kidney Pills were so highly recommended that he decided to try them and procured a box at H. P., Dunn & Co.'s drug store. It proved just the remedy he needed for the benefit was prompt and effective from the first dose and a continued use of Doan's Kidney Pills entirely eradicated the whole trouble.'

Sold for 50 cents a box by H. P. Dunn & Co., and all druggists. Foster Milburn Co., Buffalo, N. Y., sole agents for
